- Fish processing company

**The attorneys of BGPartner protect the interests of clients in civil, commercial, administrative and criminal matters before all Swiss courts (including the Federal Supreme Court) and authorities.**

Our team of lawyers has a broad and long-standing experience in national and international arbitration (among others ICC, Swiss Rules and CAS). Our services include both Ad hoc and institutional arbitration.

Our activities cover the entire spectrum of litigation. This includes in particular the determination of the litigation strategy, its implementation and the conduct of any (in court and out of court) settlement negotiations.

If required, BGPartner is also able to provide clients with competent representation before foreign courts and authorities worldwide within a very short period of time due to its integration in the international LAWorld network.
